What useful feedback could you provide the professor of this course? (Please be specific.)

As important as it is to have writing exercises and maybe you could always teach the material before doing worksheets. I do think it is good to make students think critically, but we might be able to finish worksheets more quickly if we had lecture first.

What were the best aspects of this course? (Please be specific.)

The professor is extremely organized, helpful during office hours, fair in grading, accessible, knowledgeable, and overall one of the best math professors I have ever had.

What would you change about this course? (Please be specific.)

See above.

Please evaluate your own performance in this course. That is, are you satisfied with your accomplishments in this course? If not, what should you have done differently to improve your performance and/or comprehension of the course material?

I could have done better on this.
